## WHY CHOOSE US

At Xtranet, we design and offer IT solutions that are customized to each clients current needs thus optimizing IT spend and future proofing of the solutions.

We have carefully selected leading partners to ensure you get the right combination of computing, storage and software solutions at any one time.

We offer all data centre IT solutions ranging from Rack and Blade Servers, Storage Arrays, NAS and SAN, Virtualization, Server and Storage Consolidation and the accompanying software licenses.

We offer the underlying infrastructure such as power, racks and data centre builds to ensure a reliable environment.

We deploy using certified engineers with full manufacture authorization.

**We've Got You Covered!**
